Lofty AMBITIONS

MARY KNAPE AND KELLY ZIBELL
KNAPE & ZIBELL INTERIORS

WHEN A RETIRED COUPLE CRAVED an urban respite, they knew that a downtown Denver loft was just the ticket. Yet designing a space that took advantage of the sweeping floor to ceiling city views was important.

With this in mind, Knape and Zibell Interior Design completed a full home project that focused on maximizing the beauty of this streamlined space with functional yet gorgeous furnishings that were low profile in scale. A neutral palette of modern silhouettes was complemented by bold pops of colorful décor. And while the loft is most certainly contemporary in its overtones, nods to Asian influence – in both art and accessories – can be found throughout the space. A collection of antique ginger jars graces the custom dining table, perfectly juxtaposing against its clean lines.

Bedrooms were adorned with rich textiles and fashionable flavor while remaining relatively masculine in feel. A lacquered desk imported from Asia graces the master with unabashed flair, and is softened by a grey wool upholstered desk chair.

Perfect views and glass and concrete architecture aside, perhaps one of the space's most impressive notions is the collection of original artwork – all created by local talent – that hangs throughout the loft. →

Domestic Bliss | LOFTY AMBITIONS

Living Room: Floor to ceiling windows provided an inspired city view that played perfectly against streamlined furnishings in timeless silhouettes. A CPA silk and wool rug in a geometric pattern offsets an understated yet interesting sofa and chair upholstered in fabrics by Brunschwig & Fils.

Guest Room: A welcoming bedroom provides a comfortable, sophisticated respite for guests with a custom headboard by Charles Eisen & Assoc. and EJ Victor chest available through Columbine Showroom.

Master Bedroom: The master bedroom is traditionally appointed, with touches of whimsy and color. A leather Kravet headboard is upholstered in Old English Brandy while a Brunschwig & Fils side table in black with Gold Leaf interior offers the room a more playful nod. The custom bedding is by Home Treasures, available through Hoff Miller.

Desk: A special find, this desk is by Asian Treasures c. 1880 A.D. originating in Anhui China. It is juxtaposed by a contemporary mirror from Brunschwig & Fils.
